

WORLD ENVIRONMENT DAY 2018
BEAT PLASTIC POLLUTION

India is the global host of 2018 World Environment Day which will take place on June 5, 2018. With "Beat Plastic Pollution" as the theme for this year's edition, the world is coming together to combat single-use plastic pollution. World Environment Day is a UN Environment-led global event, the single largest celebration of our environment each year. The Asia Book of Records made for world environment day. Mr. Gaurav Grover, President of NDSWA said "This initiative will give an encouragement to all citizens, that they should come forward and fight against the issue of Single-use plastic which is polluting the environment. But this can only happen by individuals taking a step forward, World Environment Day is just a wake-up call for us to work for our environment. Mr. Naysan Sabha, Director, Communication Division UN Environment said "The theme: Single-use plastic which is polluting the environment is critical to every citizen of this city and the whole planet. One must avoid the consumption of single-use disposable plastics. Plastics per say are not the problem but single-use disposable plastics are the issue as they have very little value and a linear approach to the economy.
